

Our Vision

TO PROMOTE THE ELECTRIFICATION OF OUR TRANSPORTATION IN AN ENVIRONMENTALLY RESPONSIBLE, PROFITABLE AND HEALTHY MANNER.

TO ACCELERATE THE ADOPTION OF ELECTRIC VEHICLES ON LONG ISLAND, BOTH PERSONAL AND COMMERCIAL, BY ADDRESSING THE KEY INHIBITORS TO WIDESPREAD ADOPTION INCLUDING CHARGING INFRASTRUCTURE, AWARENESS, AND COST.

Drive Electric Long Island

MISSION:

Drive Electric Long Island is dedicated to encouraging and accelerating the adoption of electric vehicle usage and charging infrastructure on Long Island through advocacy, education and outreach efforts to local municipalities, companies, residents, and industry stakeholders.

ABOUT:

The coalition, led by the U.S. Green Building Council - Long Island Chapter (USGBC-LI), includes a broad range of electric vehicle (EV) stakeholders on Long Island. These stakeholders include Farmingdale State College, The Sustainability Institute at Molloy College, PSEG-Long Island, Emerald Alternative Energy Solutions, Cameron Engineering, the Sierra Club, NYSERDA, Long Island's town, city and village municipalities, automakers, car dealerships, EV infrastructure providers, industry associations, business leaders and EV enthusiasts.
