Drive Electric Long Island has secured a discount code as shown above for attendees to the Electrify Expo taking place August 12-13, 2023 so don't miss it! Last year's event at Nassau Coliseum drew 12,000 people and 5,000 test drives were taken!

Come experience & demo your favorite electric car, electric truck, e-motorcycle, e-bike, e-scooter, e-skateboard, e-surfboard, e-foil and other electric brands. Visit fun interactive displays, learn about all things electric, and take a test drive on one of the thrilling **demo courses**. Kids can check out the Kids Zone filled with electric go-carts, e-bikes + more!

Electrify Expo is a full day of electrified fun mixed with great food, drinks, music and more. This is an e-mobility party, and everyone is invited! Drive Electric Long Island will feature a booth and will be distributing information about the EVs at the show. Early bird tickets are \$14.99 per ticket.

## **We need YOU!**

### **Would your company like to host an EV 101 or Showcase?**

Drive Electric LI is planning electric vehicle Showcases and “EV 101” events at local libraries, workplaces, and major Long Island public events.

- The Showcases include vehicle dealerships showing current vehicles on the market so residents can conveniently learn what models are available and which might best suit their needs.
- For in-person EV 101 presentations, EV owners bring their vehicles to ‘show and tell’ their story of why they decided to buy an electric vehicle and share their experiences as an EV owner.

The goal is to conduct two EV 101 presentations per month and 12 Showcase events over the next year.

Drive Electric is seeking host partners to offer these events. Please contact us at [info@driveelectriclongisland.org](mailto:info@driveelectriclongisland.org) to schedule an event.

## **EV News**

### **Volvo, GM, Ford, and Rivian To Adopt Tesla charger**

Volvo is the fourth big-name automaker (and the first from Europe) to announce support for Tesla’s NACS EV charging connector after Ford, GM, and Rivian, beginning in 2024.

## Chargeway Teams Up with NYPA to Simplify EV Charging for New Yorkers

Oregon-based software startup Chargeway has partnered with the New York Power Authority (NYPA) to enhance [EV](#) education efforts in New York through the deployment of interactive Chargeway Beacons. These kiosks showcase the company's color-coded visual language for electric vehicle (EV) charging, making it easier for potential [EV buyers](#) to understand how EVs can fit into their lives.
