

## *What's Inside*

### EV Showcase at Stony Brook University Saturday Nov 11th

Join us from 11am - 2pm on 11/11 at Stony Brook to view EVs and get your questions answered!

#### Join Us for an EV 101 Presentation

- 11/18 Unitarian Universalist Congregation, Manhasset

### EV News

- EV Tax Credits Get Much Better In January 2024
- Only 1.5% Of EVs Have Had Non-Recall Battery Replacements
- How Does Temperature Affect EV Range?
- EV vs. Gas Combustion Vehicles- Which Produce Fewer Emissions?
- Tesla Installs its 50,000th Super Charger

## Join us: Upcoming EV 101 Presentation

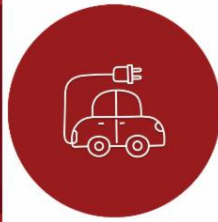

Join Drive Electric LI to learn the basics about electric vehicles, charging, and incentives. Have the opportunity to ask current EV owners about their experience at the EV showcase after the event!

**Nov. 18 at 1:30pm**

Unitarian Universalist Congregation  
48 Shelter Rock Rd, Manhasset

Electric Vehicle Showcase  
Stony Brook University  
Saturday, November 11, 2023  
11am - 2pm

# ELECTRIC VEHICLE (EV) SHOWCASE

**Saturday, November 11th  
11am - 2pm | SBU's Lot 4**

- Stop by before or during the football game to view and relax in some of the newest EVs on the market
- Learn the basics about EVs and charging
- Talk with local EV owners about why they switched to electric and what it's really like to drive an EV

## HOSTED BY

Stony Brook University's  
Office of Sustainability and  
Mobility & Parking Services (MAPS)  
in partnership with Drive Electric LI

For questions, please contact Beth Fiteni at [bfiteni@usgbc-li.org](mailto:bfiteni@usgbc-li.org)

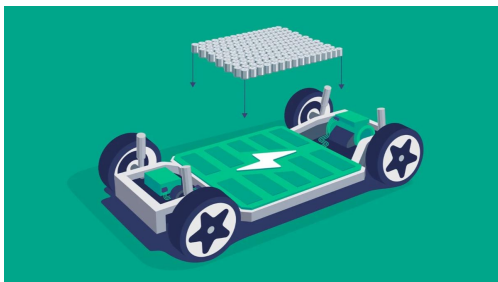

## EV News

**EV Tax Credits Get Much  
Better In January 2024**

Buyers of new and used clean vehicles will soon be able to transfer the credit amount to the point of sale, meaning they can theoretically drive out of a dealership or retail location with an EV for significantly less money than before—no waiting for money back in April or later.

## Only 1.5% Of EVs Have Had Non-Recall Battery Replacements

Recurrent Auto studied 15,000 various EVs and learned that – outside of battery replacement recalls – only 1.5% of them have had their battery packs replaced.

## EV vs. Gas Combustion Vehicles- Which Produce Fewer Emissions?

The average American owns as many as nine cars over the course of their lifetime. If all nine are gas powered, they'll add 693 metric tons of carbon dioxide to the atmosphere. If you buy 9 new electric cars, their lifetime carbon emissions will be 270 metric tons, or less

than 40% of what would have been created if you'd chosen to buy new ICE vehicles.

## Tesla Installs its 50,000th Super Charger

With 50,000 Supercharging stalls and well over 5,000 stations globally, the network is the largest one among all fast-charging networks. In the coming years, Superchargers will be gradually more and more accessible to non-Tesla electric vehicles, through a Supercharging pilot program and the switch to Tesla's NACS charging connector in North America by other manufacturers.
