EV Symposium and Ride and Drive
Farmingdale State College
Friday, October 6, 2023
9am - 3pm

SAVE THE DATE!!!

EV Symposium and Ride N' Drive

Friday, October 6th, 2023, 9AM-3PM EST

Farmingdale State College's Campus Center Ballroom

2350 Broadhollow Road, Farmingdale NY, 11735

This year's EV Symposium and Ride N' Drive will bring together local organizations, municipalities, EV dealers, fleet operators, manufacturers and local residents to educate attendees on considerations for fleet electrification, charging strategies for multi-unit dwelling residents, as well as EV basics for novices. Once again, this annual symposium will be held at Farmingdale State College and attendees will also have the opportunity to test drive the latest EV models right on campus.

*This event will be free for attendees.

BREAKOUT SESSIONS WILL INCLUDE:

- EV Infrastructure/Charging Breakout Session
- Multi-Dwelling Units Breakout Session
- National and Statewide Incentives
- EV 101 Session

Ride & Drive: Just bring your valid license, and you can test drive a BMW, Mini, Hyundai, Tesla, and more!

REGISTER HERE

Note: The EVolution Auto Show was re-Scheduled to October 7th!

FREE outdoor electric vehicle, auto festival! EVolution: Saturday, **October 7th** in the southeast corner of Airport Plaza, Route 110 in Farmingdale. EV News

Hilton Will Install Up to 20,000 Tesla Universal Wall Connectors

Tesla Wall Connectors are charging infrastructure that will enable the recharging of both Tesla and non-Tesla electric vehicles. The company intends to deploy up to 20,000 units at 2,000 hotels in the United States, Canada and Mexico, to create the largest EV charging network within the hospitality industry. Installations will begin in early 2024.

Letter to Editor in Newsday About Charging

Drive Electric LI's Director gets a LTE: "Long Island is a great market for EVs because we are geographically compact and about 80% of us live in single-family homes capable of meeting most of our charging needs. That's about 800,000 homes, each capable of conveniently and inexpensively charging EVs overnight at 40% discounted electric rates. Studies show that 80% of EV charging happens at home."
