ELECTRIFY AMERICA SPONSORSHIP

We are thrilled to share that Electrify America will continue its sponsorship of the Long Island EV Outreach Campaign!

Drive Electric Long Island has been awarded funding to host brand-neutral electric vehicle education and outreach events from January 2025 through September 2026. This initiative will help drive awareness, education, and the adoption of EVs across Long Island! As part of this effort, we will be hosting EV 101s, EV ride and drives, and dealer sales training to improve the buying experience. Read more at media.electrifyamerica.com.

Inside The State of EVs on Long Island 2025 Report

The State of EVs on Long Island 2025 Report is here! Our latest report is now available on our website, featuring the top EV dealers on Long Island, detailed charging infrastructure data, and a community-level breakdown of EV sales and usage across Long Island towns. Plus, get the latest on rebates and incentives.

EV News

New study shows EV batteries retain up to 99 pct health after 120,000 kms

A new study released in Australia shows that electric vehicles maintain more than 90 per cent of their battery health, even after 120,000 kilometers and more than four years on the road. The report, from Australian used car marketplace Pickles, challenges common fears about EV battery degradation, which are cited as one of the biggest barriers to purchasing an EV. One 2023 report from the Green Finance Institute found 62 per cent of the respondents said they would not purchase an EV because of concerns about battery lifespan.
