## Drive Clean Rebate for Electric Cars

Thinking about making the switch to an electric vehicle? There's never been a better time. EVs offer a cleaner, more advanced driving experience while helping drivers save on fuel and maintenance costs. Plus, with New York's growing charging network and generous incentives, owning an EV is becoming easier than ever.

Through New York State's Drive Clean Rebate program, eligible buyers and lessees can receive up to \$2,000 off more than 60 electric vehicle models at participating dealerships. The rebate is applied directly at the point of sale, providing immediate savings.

Current rebate amounts include:

- Up to \$2,000 for EVs with more than 200 miles of electric range
  - \$1,000 for EVs with 40–199 miles of electric range
  - \$500 for EVs with less than 40 miles of electric range
  - \$500 for eligible models with an MSRP above \$42,000

Whether you're a resident, business, or government entity, these incentives can make switching to an electric vehicle more affordable than ever.

## Drive Electric Long Island In the Community

### National Night Out

Drive Electric Long Island was proud to participate in National Night Out in Long Beach on August 4!

We connected with the community, answered questions about EVs, demonstrated how easy it is to charge a Chevy Bolt EV, and tested attendees' EV knowledge with our popular "Spin the Wheel" game.

### **Glen Cove Car Show**

On August 6, the streets of Glen Cove were packed with exotic cars, classics, muscle cars, and automotive enthusiasts for the Glen Cove Car Show. Drive Electric Long Island was proud to join the lineup and bring something a little different to the show: our all-electric Chevy Bolt EV!

### **East Meadow Farmers Market**

Drive Electric Long Island was proud to plug into the East Meadow Farmers Market on August 15!

Volunteers Ralph, Chris, and Michael joined more than 800 attendees for a beautiful summer day filled with fresh produce, local crafts, and plenty of EV education.

With both a plug-in hybrid and a fully electric vehicle on display, visitors had the chance to get an up-close look at today's EVs and learn directly from experienced EV owners.

### **Bay Shore Farmers Market**

Drive Electric Long Island was happy to join the fun at the Bay Shore Farmers Market on August 28 and the Deep Roots Farmers Market in Glen Cove the following day.

Healthy communities start with healthy choices—from enjoying nutritious, locally grown food to choosing vehicles with no tailpipe emissions. Going electric is one way we can all help contribute to cleaner air on Long Island.

---

## **Optiwatt EV Smart Flex Charging Pilot**

Optiwatt and PSEG Long Island are offering a residential managed charging pilot called the EV Smart Flex Charging program, administered in partnership with the smart-charging app Optiwatt. The pilot is capped at 500 vehicles and runs through October 31, 2026, to help balance the local electric grid and prevent equipment overloading.

Participants receive a \$40 enrollment reward after confirmation and an additional \$40 reward at the end of the program (if enrolled for the duration).

Details about the program can be found [HERE](#).

---

### **Get up to \$400 off a Residential Charger from PSEG LI**

Qualified PSEG Long Island customers can receive a \$100 rebate off a qualified Level 2 EV charger. Customers located in Disadvantaged Communities (DAC) and on our Household Assistance Program can receive an additional \$300 – totaling \$400 in rebates. An interactive map of designated Disadvantaged Communities can be found [here](#).

**Click [HERE](#) for information on how to apply.**

## EV Batteries Are Defying Expectations After Hundreds of Thousands of Miles

Industry experts think newfound knowledge of battery durability is a game-changer for consumer confidence in EVs.
